# ➤ **LEARNING PATH** **VALORISATION** **AND IMPACT!**

Ever think about the impact that your work can have outside of academia? Would you like to explore how you can increase the impact you're already making? As of January 2024, IXA will offer a new learning path on getting involved in valorisation and creating impact. The objective? To inspire you and make you aware of the power that comes with creating value and impact through your research.

## **LOCATION**

The first session will take place at your own knowledge institution. The institutions will alternate hosting the sessions for participating researchers to experience other institutions.

## **START AND TIMELINE**

IXA will start a pilot of the new learning path in January. The duration of the path is January – April 2024.

## **REGISTRATION**

Would you like to participate? Please notify your manager or send an email to Caroline Kleine Staarman:

[info@ixa.nl](mailto:info@ixa.nl)

## **COST**

There are no costs associated with the learning path. Simply register beforehand please.

## FOR WHOM

Researchers from Amsterdam knowledge institutions are welcome to join the learning path. The path is particularly suitable for late phase PhD students and postdocs who want to become proficient in valorising their research.

## FORM AND ONLINE CONTENT

The modules are offered in a hybrid form, alternating short interactive live sessions on various locations with online information. You can follow all modules as a continuous learning path or as self-standing. The sessions are interactive and will leave plenty of room for questions and collaboration with/ or learning from fellow researchers.

## CONTENT OF THE LEARNING PATH VALORISATION AND IMPACT

What can you expect from this learning path? The path consists of 3 modules; an introductory session, an in-depth session and two sessions in which you work on your own idea.

Participating researchers can work on a number of skills corresponding to their own needs. The focus will be on translating your own research into the idea that you will further develop into a service, product or way of public outreach.

Through this learning path you can take your idea a step further in a short period of time. In what way you use that time is entirely up to you.

# COURSE DESIGN

## Module 1

### Impact through research: opportunity?

Get inspired by researchers who have already preceded you in realizing impact. In this 1-hour session you will hear more about what valorisation and impact has brought others. You will learn what valorisation and creating impact mean, why it is important and how it can help you as a researcher.

---

**Date** check out the dates per knowledge institution on the [IXA website](#)

**Location** Amsterdam knowledge institution

**Duration** 1 hour

## Module 2

# Impact through research: in-depth look into valorisation

In this half-day in-depth session we will delve deeper into the subject matter. You will not only learn about different forms of valorisation, but you will also learn how to shape this process. Discover what kind of support is available and how you can take the first steps towards creating impact through your research or idea.

---

**Date** March 2024

**Location** Amsterdam knowledge institution

**Duration** 3 hours

## Module 3

# Impact through research: focusing on your own practice

In this third module you will work on your own idea. During two interactive half-day sessions you will further develop and concretize your idea. At the end of these sessions you will know how to achieve impact. You will have an overview of the steps to be taken via a clear plan, and you will know how to make a network analysis that can help you further.

---

**Date** March and April 2024

**Location** Amsterdam knowledge institution

**Duration** 2 sessions of 3 hours
